

# INTENT JEWELLERY

UK-designed and made, Intent Jewellery is inspired by the purity and familiarity of Sacred Geometry and Numerology.

Every piece acts as a tiny powerhouse reminder. The Intent approach inspires us to revisit the Shamanic practice of 'working with energy' in a very modern way; harnessing the Law of Attraction by wearing a piece of jewellery as a reminder and acknowledging its energy always. Like energy attracts like energy.

Intent jewellery is designed to remind in the spirit of conscious and mindful living. Each piece of jewellery will sit subtly on the body; always on a small scale but which will weigh heavily with significance to the wearer.

Whether your Intent piece is to keep for yourself or to gift to another, they are to be cherished and valued as if they are a part of your whole. Intent treasures the stories, experiences and milestones that attach themselves to every piece of Intent Jewellery sold. We celebrate and encourage the individual; we want to connect and inspire a global community of people who are all in love with understanding and taking care of themselves - mind, body and spirit.
